REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the limitations reciting a venetian blind cutting apparatus having a rotatable plate including a head rail aperture as claimed, a linearly movable blade assembly to cut a bottom rail and slats as claimed, and a drive mechanism operable to cut the head rail, the bottom rail, and slats concurrently and non-sequentially as claimed in combination with other limitations set forth in claims 1, 14, 26, 36, and 39 are not anticipated or made obvious by the prior art. For example, Marocco teaches an apparatus for cutting head rail, bottom rail, and slats wherein components are cut progressively. Stevens teaches a shear for cutting an iron bar having a rotatable plate with an aperture for the bar. However, Marocco and Stevens, alone or in combination, do not teach the blind cutting apparatus having the rotatable plate including the head rail aperture as claimed, the linearly movable blade assembly to cut a bottom rail and slats as claimed, and the drive mechanism operable to cut the head rail, the bottom rail, and slats concurrently and non-sequentially as claimed in combination with other limitations set forth in claims 1, 14, 26, 36, and 39.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
